Cuban Patients Are Dying Because of U.S. Blockade, Doctors Say

The New York Times | By Ed Augustin, Jack Nicas, Jorge Luis Baños | March 26, 2026

The sanctions' consequences took several years to ripple through the health system, said **Ruth Gibson**, a **Stanford** University doctor who studies the impact of sanctions on public health. The impact of the oil blockade, she said, "will likely be exponentially more severe." Dr.…

Yale Report Links Russian Energy Giants To Deportation, Indoctrination Of Ukrainian Children

PressNewsAgency | March 25, 2026

A companion analysis from **Stanford** University warns that a recent US sanctions waiver could allow the companies to continue generating revenue. … "This matters, because American foreign policy is…putting dollars directly into the pockets of two Russian companies implicated in the forcible transfer and reeducation of Ukrainian children," said researcher **Ruth Gibson**....

Izvještaj Univerziteta Yale povezuje ruske energetske gigante s deportacijom i indoktrinacijom ukrajinske djece

slobodnaevropa.org | By Alex Raufoglu | March 25, 2026

Prateća analiza Univerziteta **Stanford** upozorava da bi nedavno američko izuzeće od sankcija moglo omogućiti kompanijama da nastave generisati prihode. … "Ovo je važno, jer američka vanjska politika… stavlja dolare direktno u džepove dvije ruske kompanije koje su povezane s prisilnim prebacivanjem i preodgajanjem ukrajinske djece", rekla je istraživačica **Ruth Gibson**.…

Così la guerra colpisce (anche) i sistemi sanitari

About Pharma Online | March 24, 2026

L'impatto delle sanzioni "La situazione sanitaria in Iran era incredibilmente complessa prima della guerra a causa del ripristino delle sanzioni multilaterali imposte dall'Organizzazione delle nazioni unite contro il Paese il 27 settembre 2025", commenta **Ruth Gibson**, accademica al Center for Innovation … in Global Health della **Stanford** School of Medicine….

200,000 additional children under 5 will die this year - thanks to aid cuts

Dnyuz | Dec. 5, 2025

When resources dwindle, the effects often "trickle down" first upon the "most vulnerable groups within society" — starting with mothers and young children — "who will carry the burden of those restrictions," **Ruth Gibson**, a postdoctoral fellow in **Stanford's** department of health policy, told me earlier…
